Name	Asees Basra
Gender	Female
Grade	11
Academic Score	91% - 100%
DOB	22/06/1999
Hobbies	Swimming, Psychology, Languages, Comics, Pop Stars

Capturing perspective of parent and child

Asees had taken PCB and psychology in class 11th. Asees mentioned that she was interested in doing something that combined psychology and biology. Although the obvious next step for Asees, according to her parents was going into medical field, Asees had other plans.

She knew what she liked but had no idea how to make a viable career out of it. Her mother assured that they were open to Asees exploring other careers as well as long as she knew clearly what she wanted to do.

Career Decision

Asees had high cognitive intelligence which helped her navigate through her study materials easily and she was a good student at school. Since both the subject that she likes (biology and psychology) have huge content, we informed her that she can turn these notes into effective flow charts and color coded diagrams that will help her retain information better. This information was relayed after careful analysis of her learning styles and strategies as identified by AIM assessment.

Career Pathways Discovered

During sessions, Asees informed us that she would like to work in an area where she also gets opportunity to interact with the patients and help them. After subsequent sessions with Asees about her interests and keeping in mind her AIM profile, we came up with a few career streams that allow to combine psychology and biology. The fields discussed with Asees were:

1. Neuropsychologist
2. Genetic Counsellor
3. Bio psychologist
4. Psychiatrist
5. Researcher

A brief of all these careers was provided to Asees and she was encouraged to read about them and identify the choice that she related with most.

Career Choice

After Asees read through these and came to a decision, Genetic counselling came out as the most viable option for her as it combines psychology and biology and also gives her a chance to interact with patients and impact their life in a positive way.

Education Roadmap

Asees was very confident that she wanted to study in Canada and her parents supported this idea. So we focussed on providing her with names of colleges that offer a course in genetic counselling:

Recommended Colleges

College	URL
University of Toronto	http://www.moleculargenetics.utoronto.ca/genetic-counselling#msc-genetic-counselling-program
McGill	https://www.mcgill.ca/humangenetics/prospective-graduate-students/program-information/msc-genetic-counselling
University Of British Columbia	https://www.grad.ubc.ca/prospective-students/graduate-degree-programs/master-of-science-genetic-counselling

Recommended Courses

As these are all specialization degrees and can be pursued only at a postgraduate level, we advised Asees that she should pursue an undergraduate degree in Biology with a second major in psychology. A list of courses were provided to her regarding the same in Canada.

College	URL	Course
University of Victoria	https://web.uvic.ca/calendar2019-01/undergrad/science/biol.html#1043877	Offers bachelors program with a major in both biology and psychology
University of Toronto	https://www.future.utoronto.ca/content/biology	Offers a life science bachelors and choose psychology as a subject in her course.
University of York	https://www.york.ac.uk/study/undergraduate/courses/bsc-genetics/	Offers a bachelors program in Genetics and Asees can choose psychology as an optional subject in her course

Recommended Coaching Centres

Since Asees is in 11th class, we advised her to keep her academic performance upto mark as universities abroad place an emphasis on senior secondary performance. She was also advised to prepare for SATs and was given a name of few coaching centres that help prepare students for SATs.

Name	Location
Jamboree Education	Sector 14, Gurgaon
Career Launcher	South city 2, Gurgaon
Gurgaon Academy	Sector 40, Gurgaon
